C

D

A

B

C

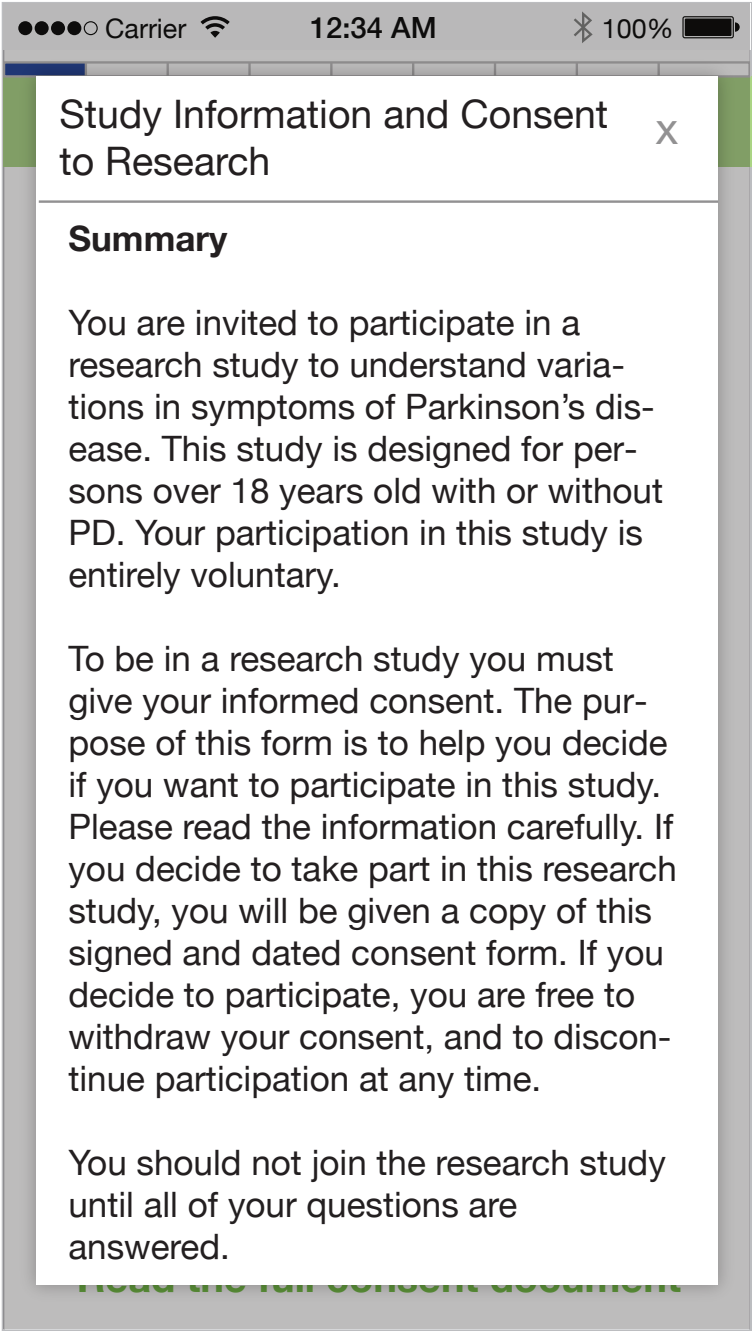

D

A progress bar will indicate which Step in the walkthrough the user is currently viewing.

There is a short introduction to the study and the walkthrough.

Get started - Takes the user to Step 2.

Read the full consent document - Opens an overlay with the full text of the consent document (shown on the next page).

A

A

X - Closes the overlay

B

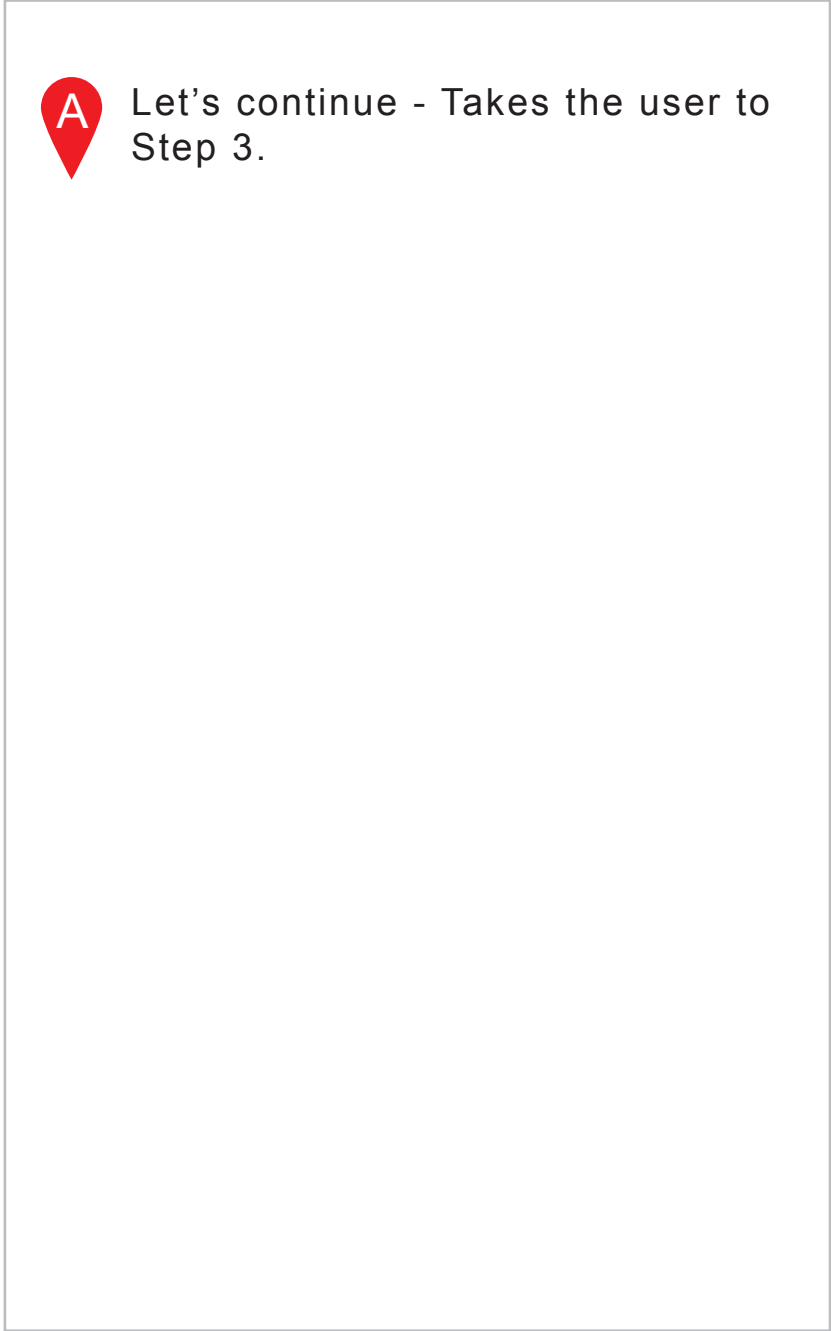

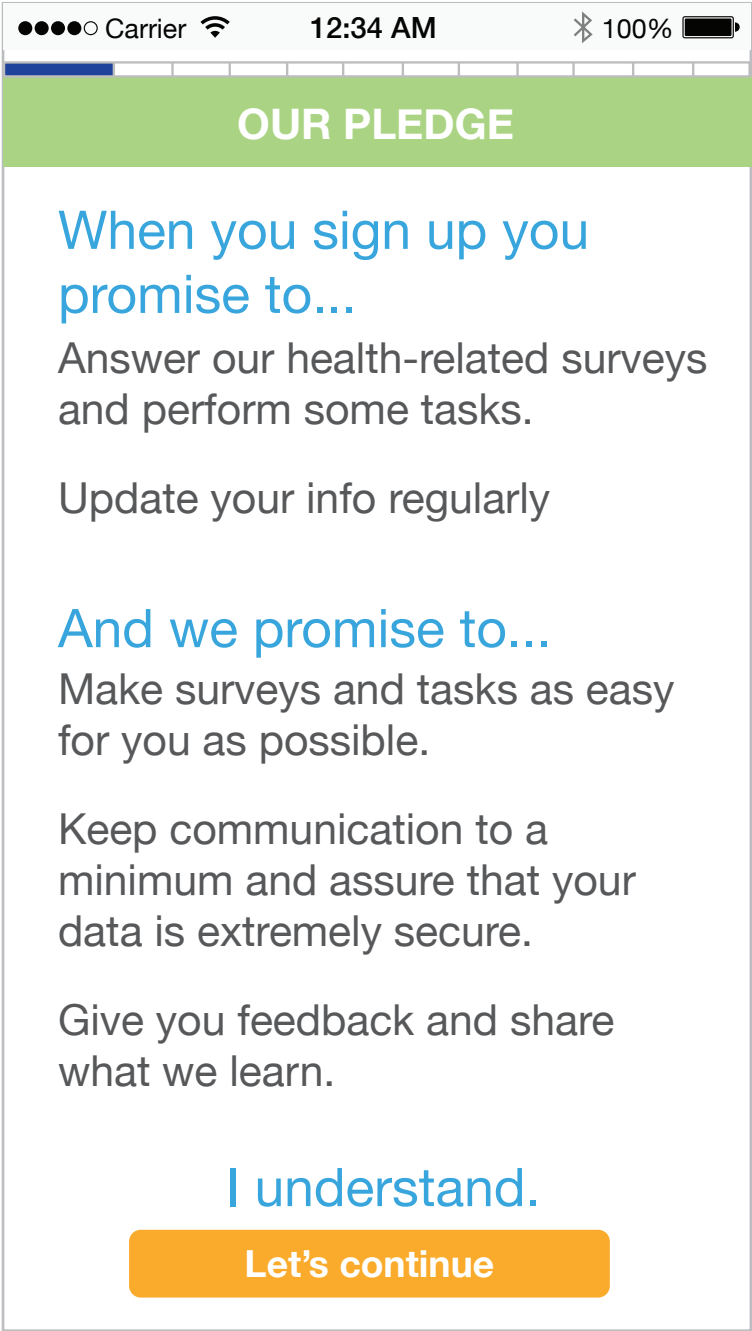

B

Note that this screen is demonstrating what the overlay will look like but contains the text of the PD App consent and will be updated when the BCS consent is finalized.

C

OK - Closes the overlay. The OK button is at the end of the text, at the bottom of the scrollable overlay.

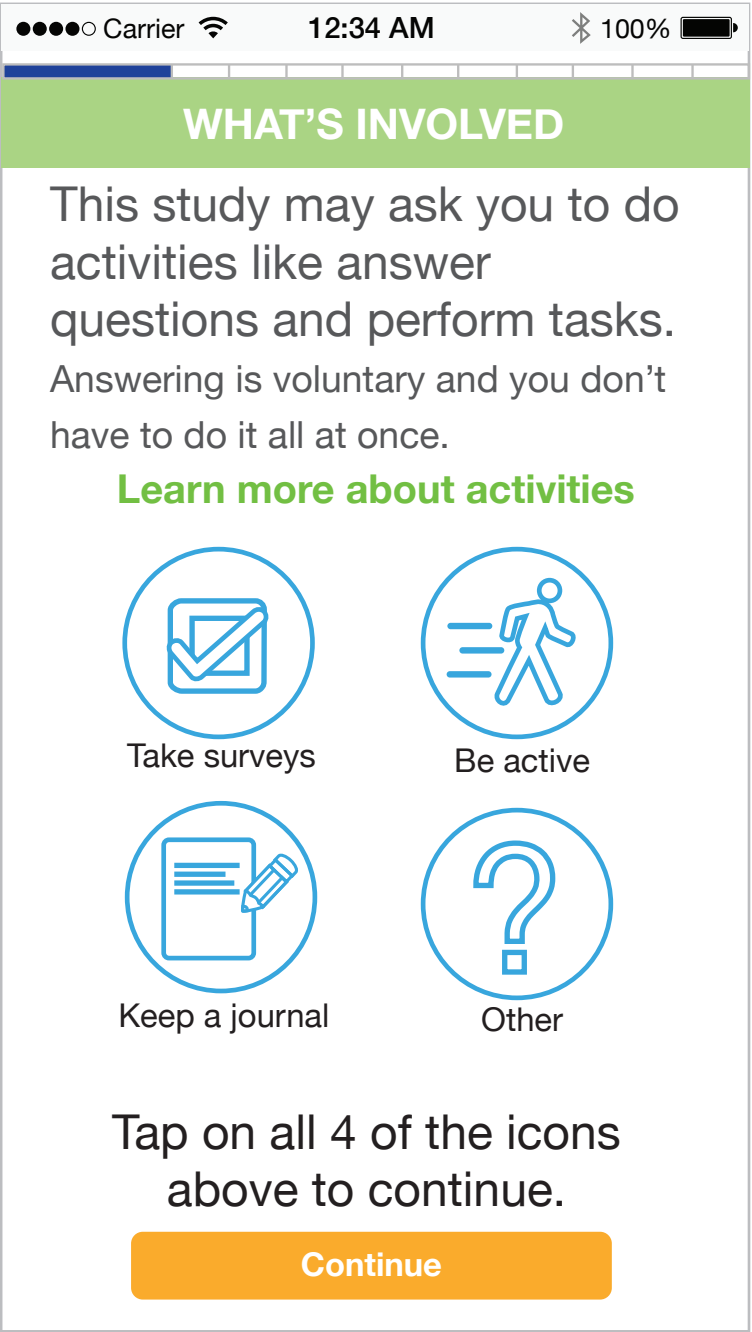

C

Let's continue - Takes the user to Step 3.

A

B

C

A

Learn more about activities - Opens an overlay with more information about the activities (shown on the next page).

B

The user must tap on each of the 4 task icons to enable the Continue button. Each icon will have a rest, press, and selected state.

rest

press

selected

C

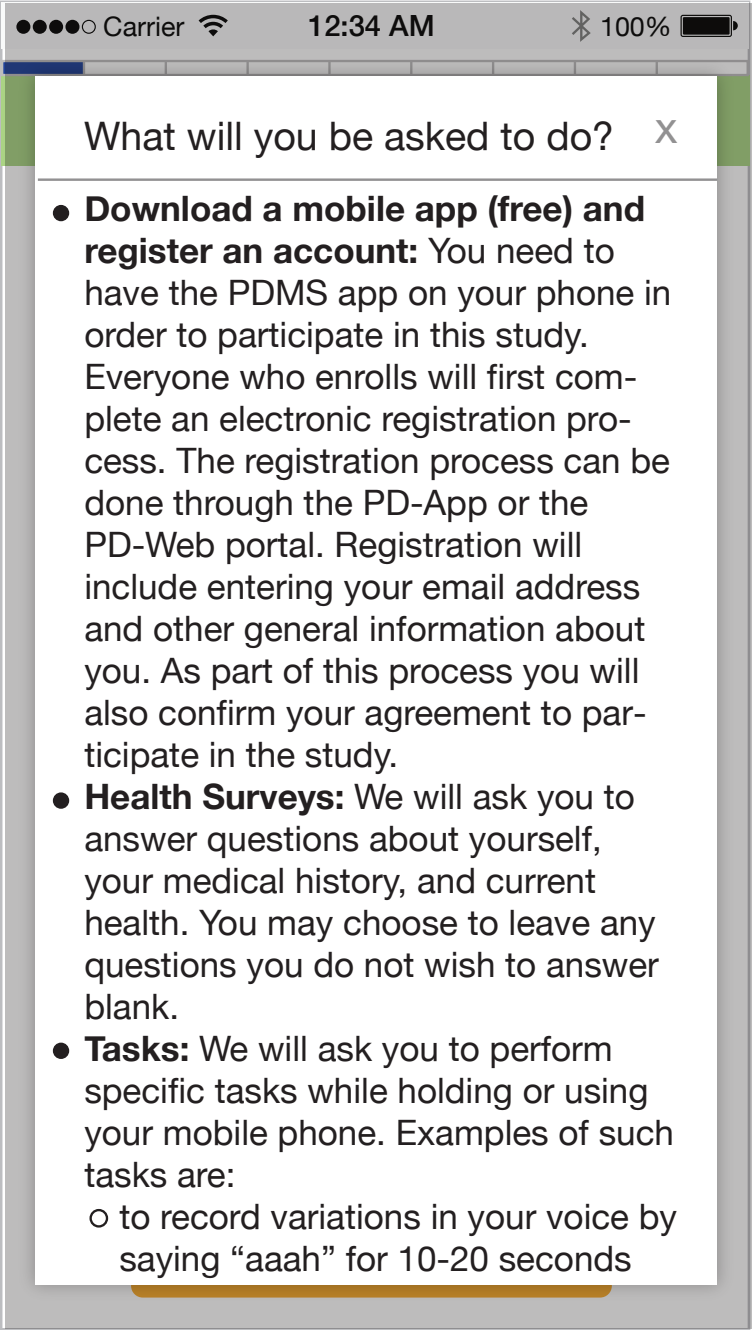

Continue - Takes the user to Step 4. The button is enabled after the user has tapped all 4 task icons.

WHAT'S INVOLVED

We may ask to collect sensor data from your phone.

You can decide when it's ok for us to collect this data by updating your sensor data settings at any time throughout the study.

**Learn more about sensor data**

Turn your phone upside down to continue.

A

Learn more about sensor data - Opens an overlay with more information about the sensor data that will be collected.

The user must turn their phone upside down to advance to the next screen of Step 4 (shown on the next page).

WHAT'S INVOLVED

We detected that the phone is upside down.

This is an example of sensor data that may be recorded for the study.

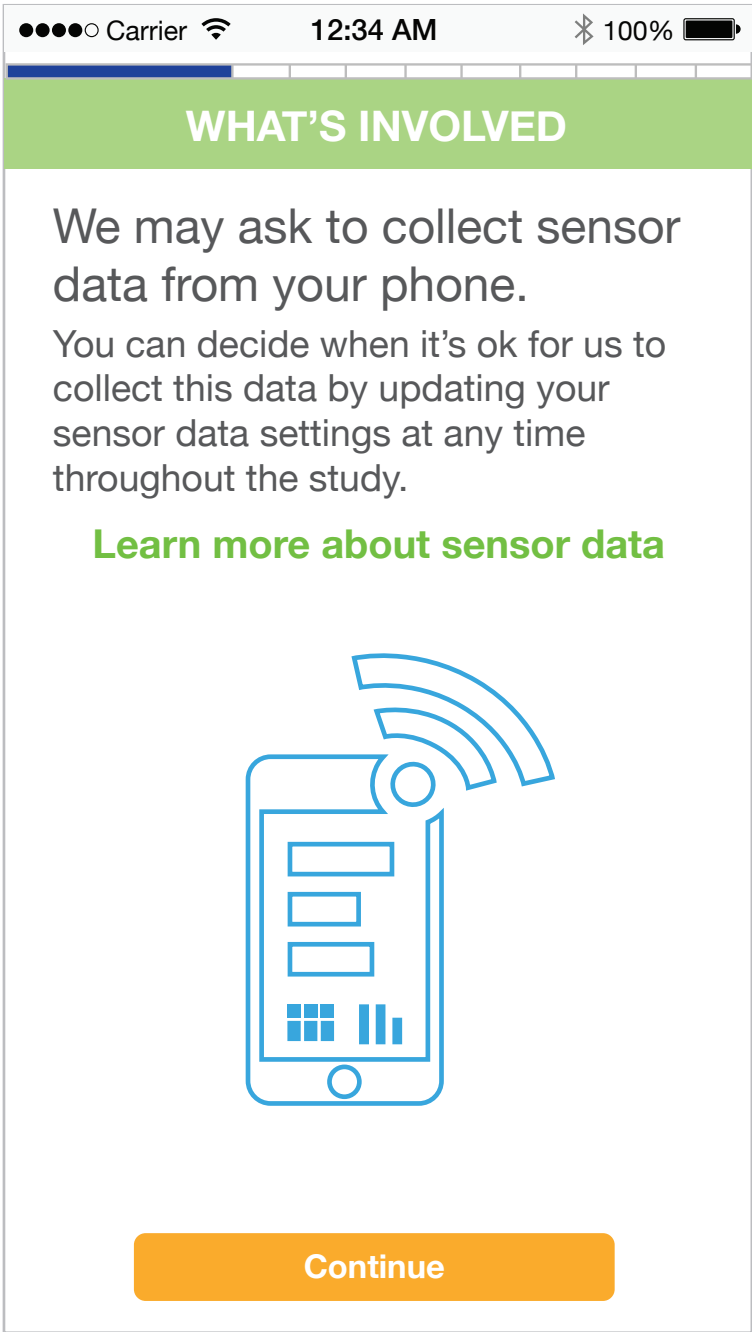

Turn your phone right side up to continue.

The user must turn their phone right side up to advance to the last screen of Step 4 (shown on the next page).

A

A

Learn more about sensor data - Opens an overlay with more information about sensor data.

B

Continue - Takes the user to Step 5. The button is enabled after the user turns the phone upside down (shown on the next page).

disabled

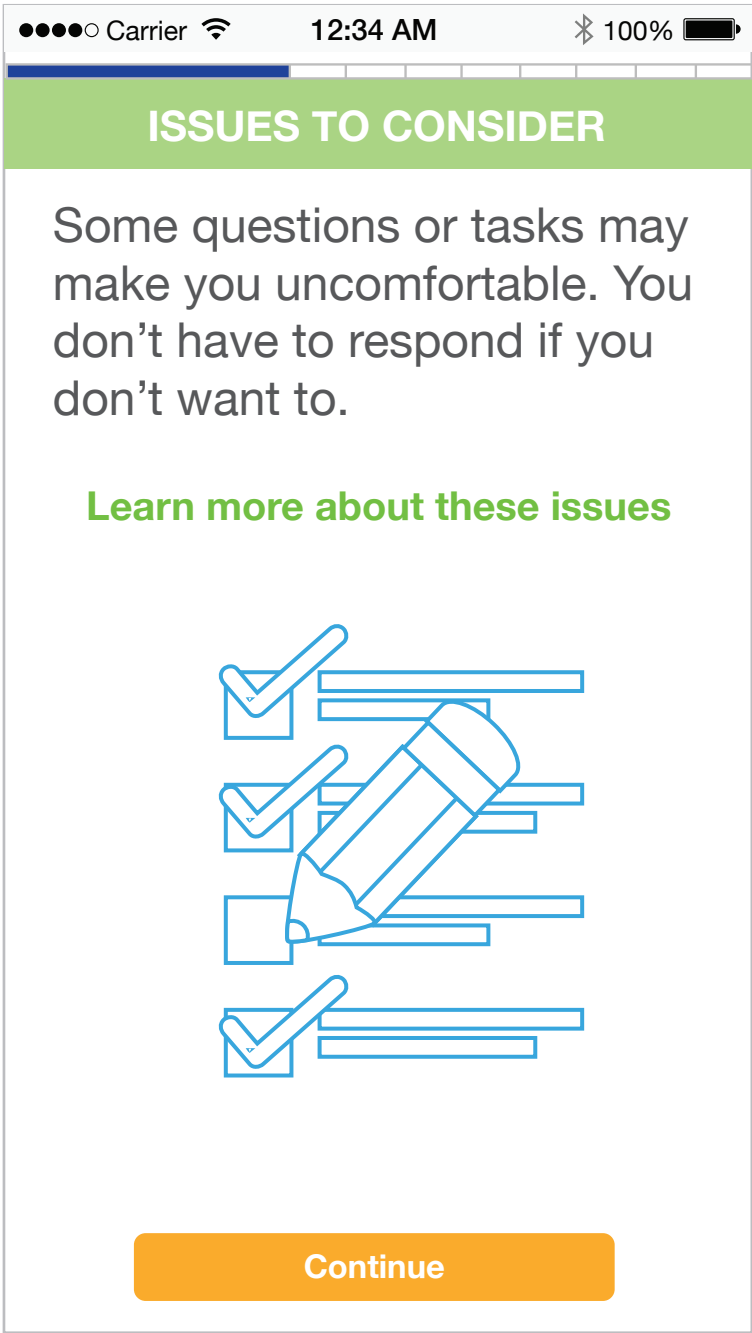

enabled

This page is the same as the first page of Step 4, except the “Turn your phone upside down to continue” text has been removed and is replaced by the continue button.

B

A

A

Learn more about these issues - Opens an overlay with more information about providing sensitive data.

B

An animation will play demonstrating a user skipping a question.

C

Continue - Takes the user to Step 6. The button is enabled after the animation finishes playing.

B

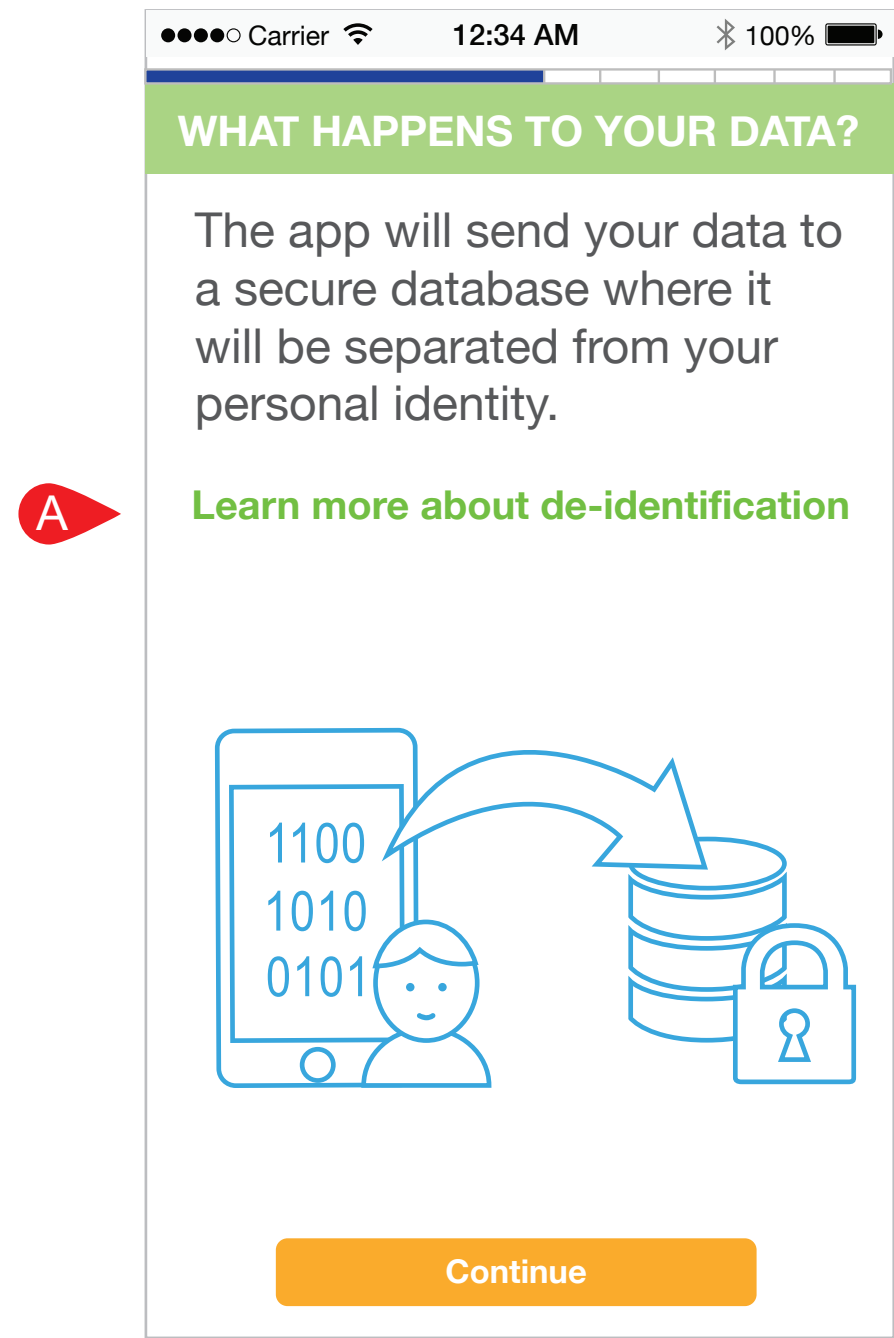

disabled

Continue

enabled

C

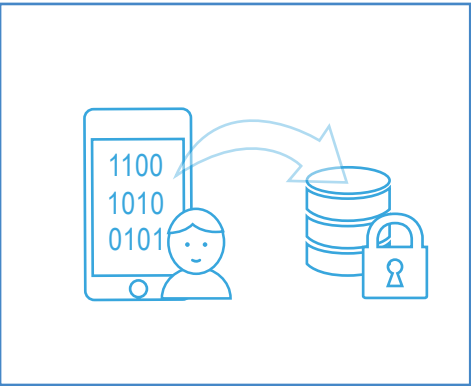

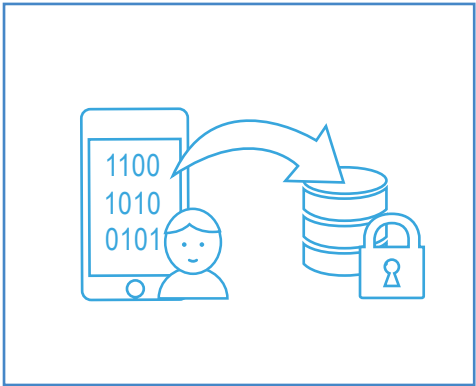

**A** Learn more about de-identification- Opens an overlay with more information about privacy and de-identification.

**B** An animation will play demonstrating that users personally identifying data being separated from their identity (see animatic on the next page).

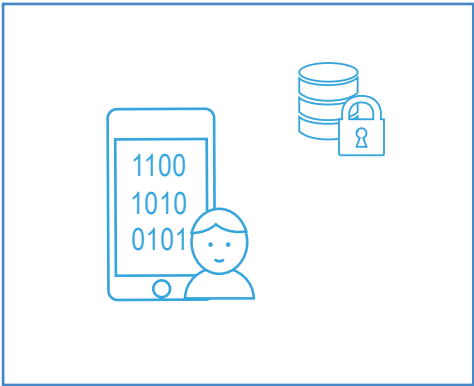

**C** Continue - Takes the user to Step 7. The button is enabled after the animation has played.

The arrow fades out...

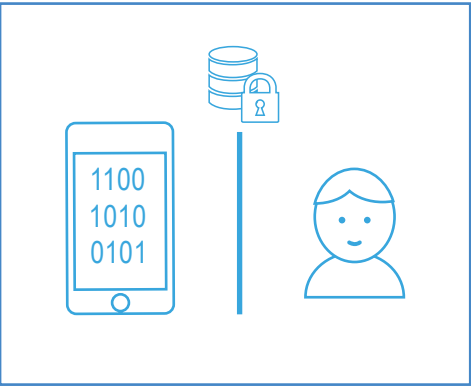

The db graphic moves up...

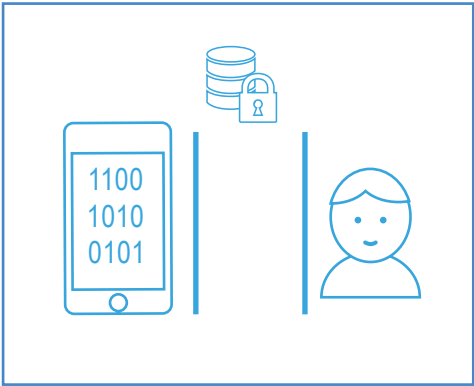

...as the human graphic moves to the right.

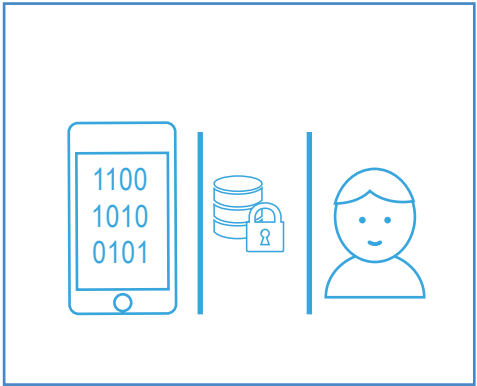

Once the db and human graphic are in place...

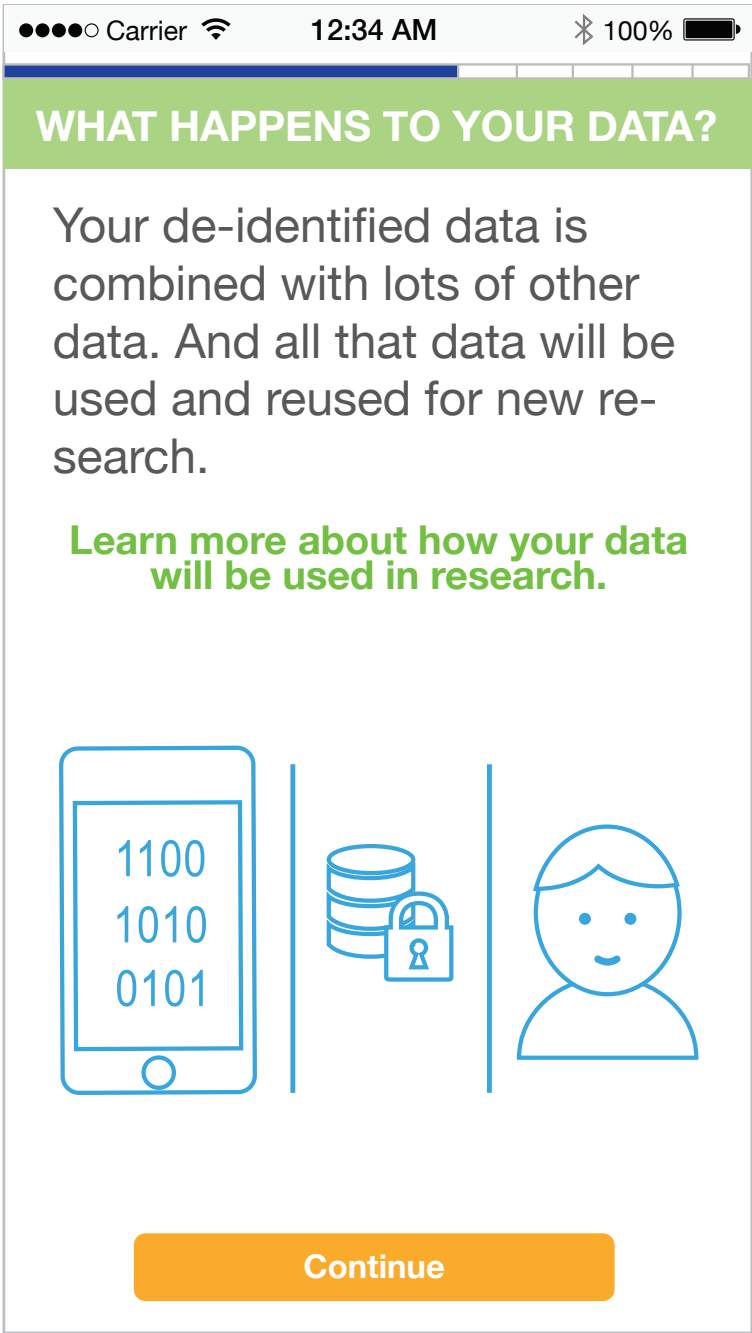

...a line is drawn...

...showing the separation.

A

A

Learn more about reusing data in research - Opens an overlay with more information about combining and reusing data.

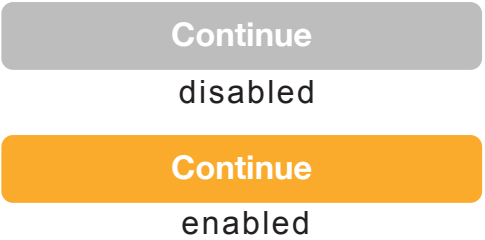

B

An animation will play demonstrating that users personally identifying data being separated from their identity (see animatic on the next page).

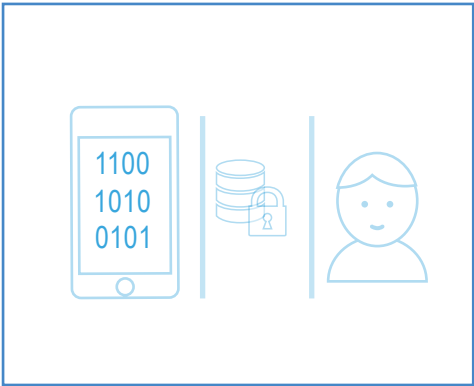

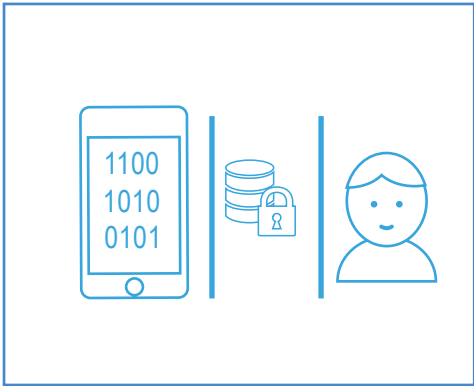

C

Continue - Takes the user to Step 8. The button is enabled after the animation has played.

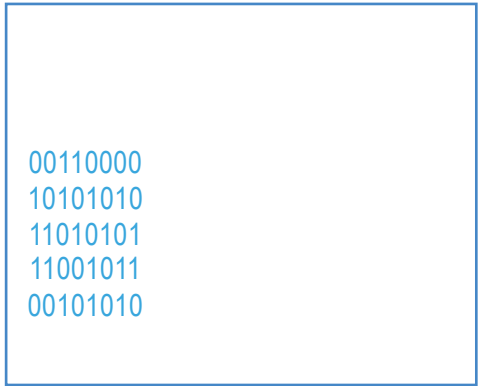

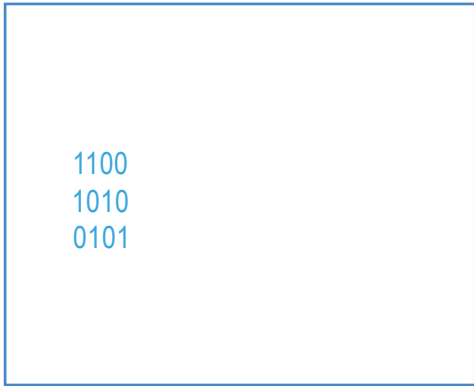

B

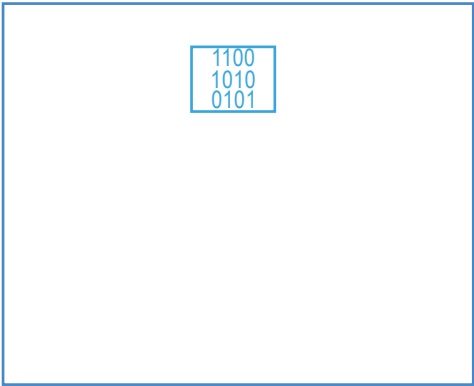

C

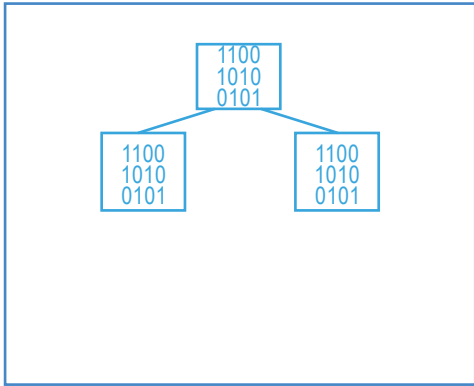

Everything fades out except the data...

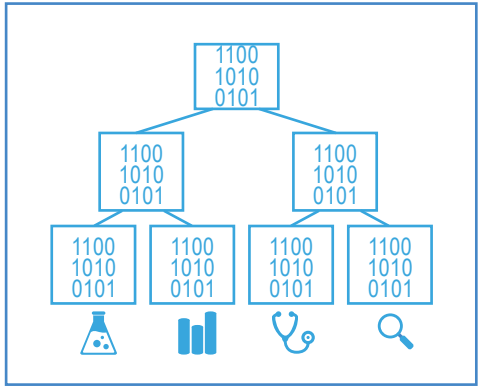

...and the data begins to grow.

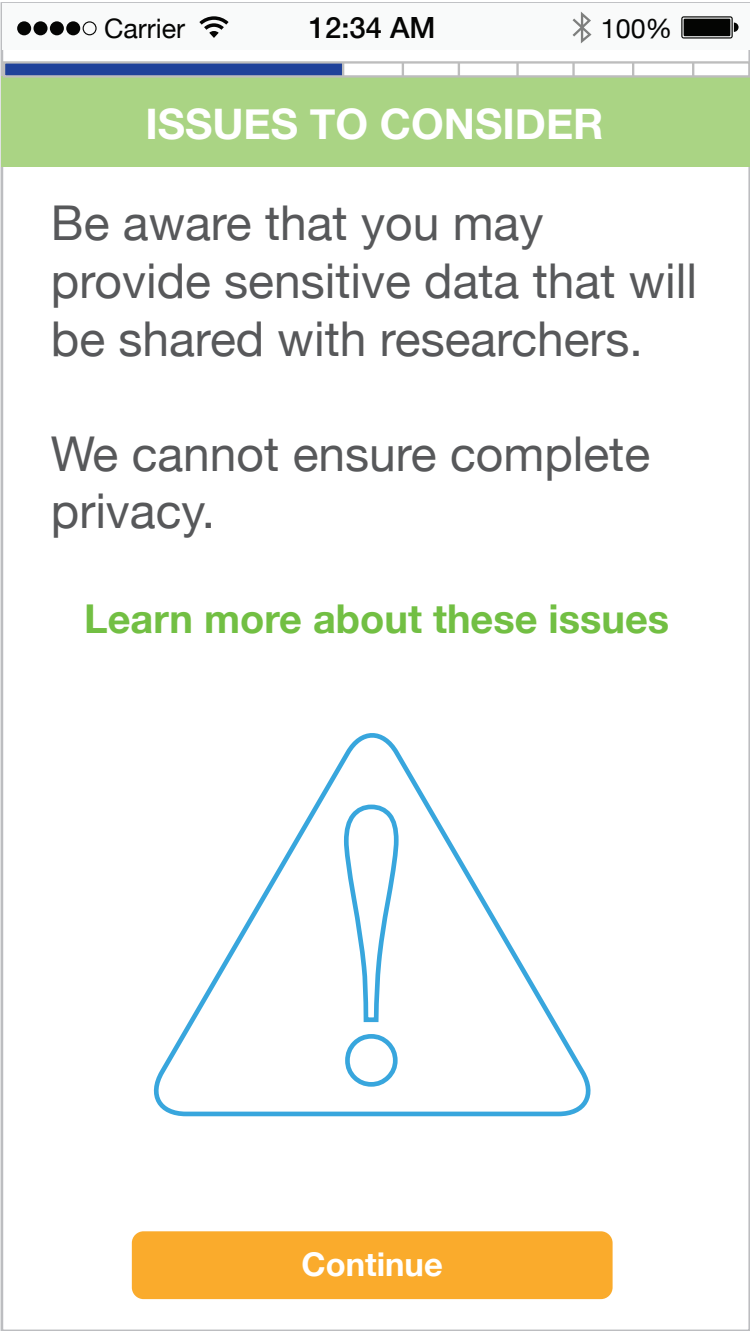

The data shrinks up into a box...

...and the graphic grows to show reuse.

A

A

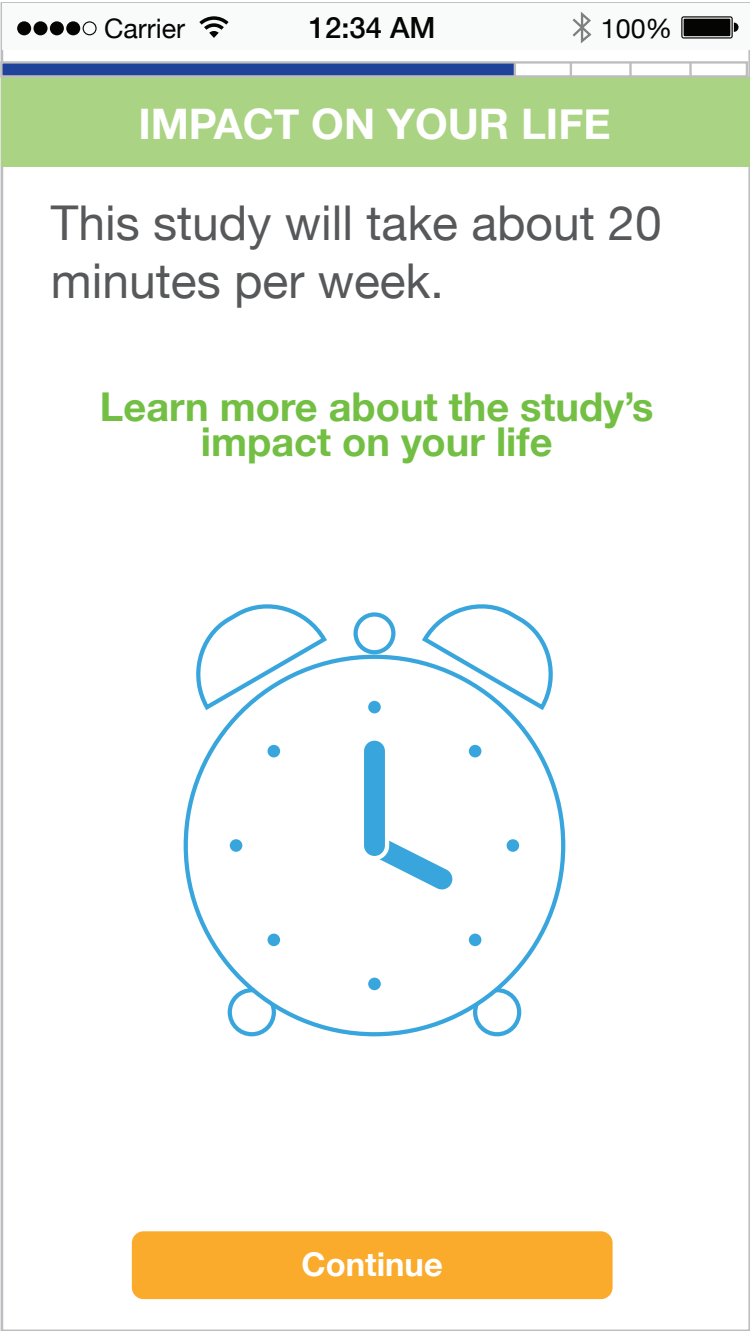

Learn more about these issues - Opens an overlay with more information about the providing sensitive data.

B

Continue - Takes the user to Step 9.

B

A

A

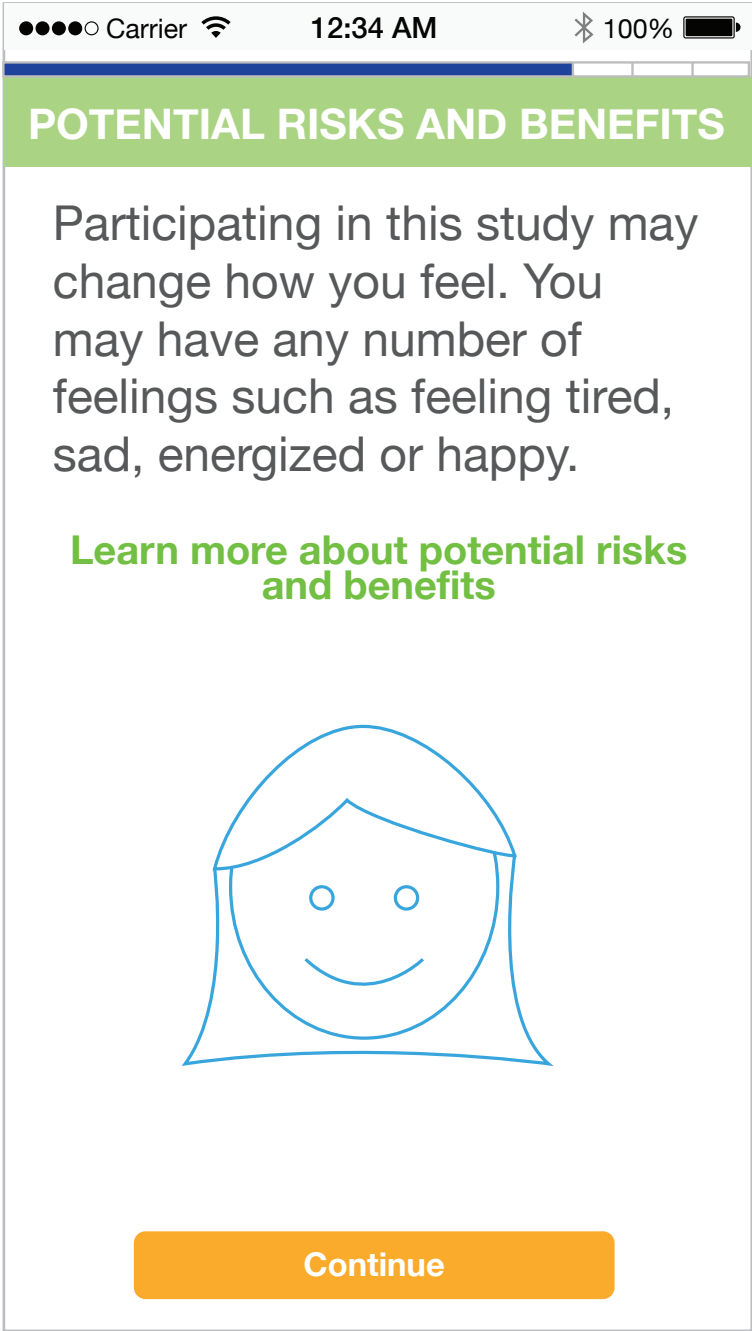

Learn more about the study's impact on your life - Opens an overlay with more information about the impact the study will have on the user.

B

Continue - Takes the user to Step 10.

B

Learn more about the study's impact on your life - Opens an overlay with more information about the impact the study will have on the user.

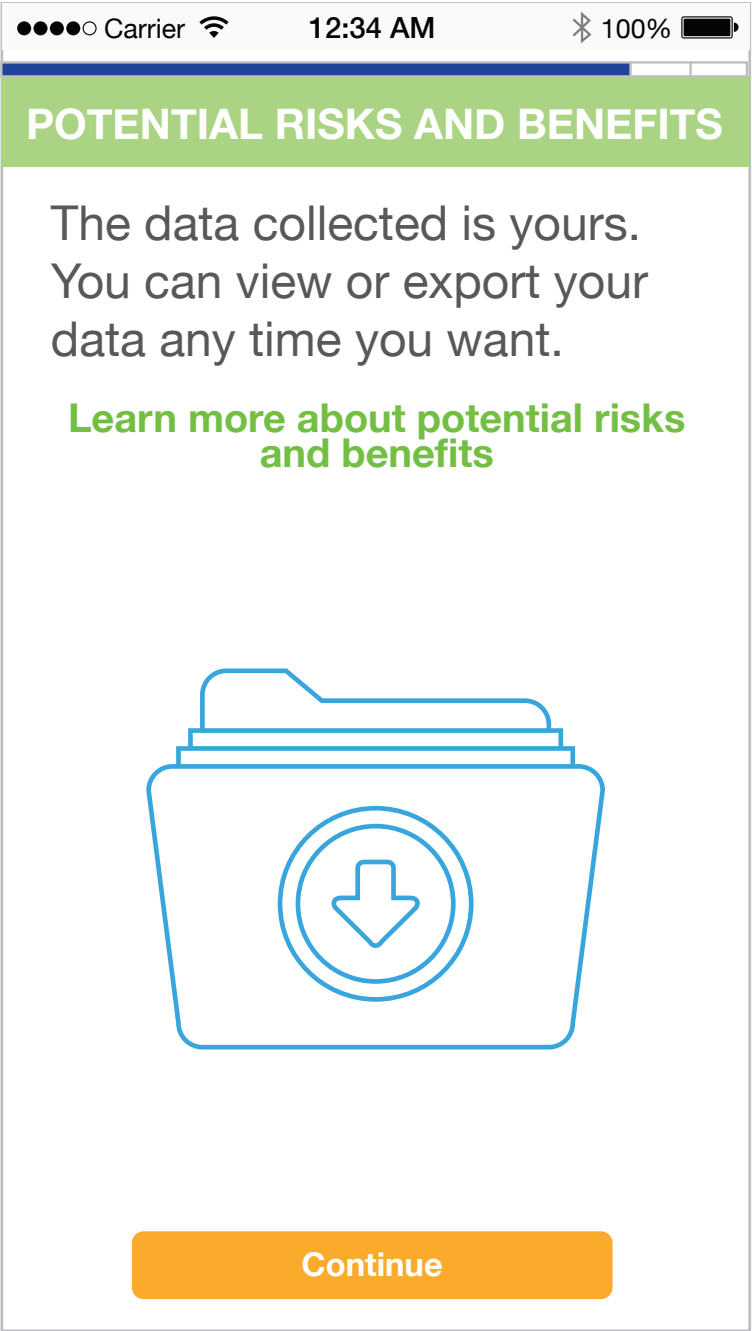

The graphic on the right will animate between different feelings - tired, sad, energized and happy.

Continue - Takes the user to Step 11.

A

A

Learn more about these risks and benefits - Opens an overlay with more information about the study's risks and benefits.

B

Continue - Takes the user to Step 12.
