Study Information and Consent to Research   X   **A**

Summary

You are invited to participate in a research study to understand variations in symptoms of Parkinson's disease. This study is designed for persons over 18 years old with or without PD. Your participation in this study is entirely voluntary.

To be in a research study you must give your informed consent. The purpose of this form is to help you decide if you want to participate in this study. Please read the information carefully. If you decide to take part in this research study, you will be given a copy of this signed and dated consent form. If you decide to participate, you are free to withdraw your consent, and to discontinue participation at any time.

You should not join the research study until all of your questions are answered.

What will you be asked to do? X **A**

- **Download a mobile app (free) and register an account:** You need to have the PDMS app on your phone in order to participate in this study. Everyone who enrolls will first complete an electronic registration process. The registration process can be done through the PD-App or the PD-Web portal. Registration will include entering your email address and other general information about you. As part of this process you will also confirm your agreement to participate in the study.
- **Health Surveys:** We will ask you to answer questions about yourself, your medical history, and current health. You may choose to leave any questions you do not wish to answer blank.
- **Tasks:** We will ask you to perform specific tasks while holding or using your mobile phone. Examples of such tasks are:
  - to record variations in your voice by saying "aaah" for 10-20 seconds

OK **B**

A X - Closes the overlay

B OK - Closes the overlay. The OK button is at the end of the text, at the bottom of the scrollable overlay.
